

Docket # 98P-0151/CPI

Dear U.S. Food & Drug Administration,  
1962 00 DEC 13 00:26

I am writing to urge you to  
grant the petition to prohibit  
the slaughter of downed  
animals - docket # 98P-0151/CPI.

Infected animals can be  
infected with Mad Cow Disease  
& in addition to this it is  
impossible to move downed  
animals humanely & they are  
generally pushed with  
tractors or dragged with  
chains. Our animals deserve  
to be treated better.

Please grant this petition.

Thank you,

Toni Schatz
